25X1A

COUNTRY	East Germany	REPORT NO.	
SUBJECT	Fuel Production in East Germany	DATE DISTR.	14 August 1953
	25X1A	NO. OF PAGES	1
		REQUIREMENT NO.	RD
		REFERENCES	

25X1X

The following tabulation of fuel production quotas for the first six months of 1953 for three large plants in East Germany was prepared by the Supply Department of the State Secretariat for Chemistry, Stones, and Earths and forwarded to the Fachreferat Normung (Standards Office) on 23 January 1953:

		<u>1953 Quarter</u>	<u>VK (aig)²</u>	<u>Aviation Gasoline</u>	<u>Diesel</u>
Boehlen Combine ¹	First	66,750 tons	34,625 tons	23,750 tons	
	Second	57,780 "	34,625 "	20,750 "	
Rositz Tar Plant	First	6,300 "	-	17,500 "	
	Second	6,360 "	-	21,500 "	
Luetzkendorf	First	1,430 "	-	11,075 "	
	Second	1,510 "	-	11,575 "	

25X1A 1. ☐ Comment: If the production plan for the last six months of 1953 is as high as that for the first six months, and if it is filled, the Boehlen plant would increase its production by about 22,000 tons as compared with the original plan, while the Luetzkendorf figures would remain approximately unchanged, and those of the Rositz plant would be decreased by about 31,000 tons.

25X1A 2. ☐ Comment: Possibly Vergaser-Kraftstoff - carburetor fuel.
